Expanding RFID Technology Product Platform; Radley Corporation announces technology partnership with Smart Label Solutions RFID

Grand Rapids, Michigan — April 21, 2016 — [Radley Corporation](http://www.radley.com), a global provider of MES and WMS software and [Smart Label Solutions](http://www.smartlabel.com), a supply chain management provider of RFID products and engineering announced a technology partnership. The strategic relationship will provide existing and future customers with access to a comprehensive platform of RFID services, software solutions, hardware and supplies.

“We are proud to partner with SLS,” said David Barks, Sr. Vice President of Radley Corporation. “Continuing to expand our RFID technology product platform opens the door for many of our current customers to consider RFID in the coming years and will also help us succeed in future opportunities.” He added, “Their experience, history in the industry and understanding of RFID technology will be invaluable during RFID project implementations.”

Both companies are headquartered in the state of Michigan and have been serving the manufacturing and supply chain industries for decades; watching RFID technology grow and evolve. Radley’s software which captures data throughout an organizations processes, whether utilizing traditional bar codes, machine integration or the use of RFID allows their customers to have access to real-time data across the [supply chain](#) that can be [integrated](#) into an ERP or business system(s). “The collaboration of our consulting and hardware experience with Radley’s software platform creates a sophisticated end-to-end RFID solution offering.” said SLS’s President, Jeff Hudson. Smart Label Solutions specializes in custom engineered RFID labeling and hardware; providing the evaluation, recommendation and roadmap to implementing multi-site integrated systems meeting the latest technology requirements and is best known for their [smartPORTAL](#) for harsh environments.

Radley Corporation will be showcasing an SLS portal at the [RFID Journal Live!](#) conference and exhibition taking place May 3-5 in Orlando, Florida. Be sure to stop by the Radley booth #112 and the SLS booth #1042 to learn how you can make RFID technology work for you.
